Hello,

As a result of your tip we have inspected both the company performing the renovation as well as the work site (171 Montecito Ave., Oakland, CA 94610). Since this is now a formal enforcement case, I cannot disclose further information in this ongoing matter. Our Office of Regional Counsel will determine potential violation and enforcement penalties.

You have access to the files under the FOIA after the case is settled, which may take several months (long legal process).

Olof Hansen
